Proposal 3: Determination of the Amounts and Content of Performance-Based Stock Compensation to Directors

1. Reason for the proposal and reason why the compensation is appropriate

For the Company's Directors (excluding non-executive Directors and Directors residing overseas), the Company proposes to introduce a Performance-Based Stock Compensation Plan to grant the Company's shares in accordance with the level of achievement of performance targets (hereinafter, the "Plan"). Contingent on the approval of this Proposal by resolution of the Meeting, stock options as share-based compensation will not be issued in the future.

The purpose of the introduction of the Plan is to further raise motivation and morale in contributing to the medium- to long-term enhancement of performance and improvement of corporate value by linking a part of the Directors' compensation to the business performance and the stock value of the Company. Therefore, the Company believes the introduction of the Plan is appropriate.

This Proposal was put on the agenda of this Meeting based on the result of the deliberation of the introduction of the Plan at the Compensation Committee.

This Proposal proposes that stock compensation is granted to Directors (excluding non-executive Directors and Directors residing overseas) in a separate framework from the limit of compensation for Directors that was approved by resolution of the 11th Ordinary General Meeting of Shareholders held on June 19, 2012 (within ¥350,000,000 a year, of which within ¥60,000,000 a year for Outside Directors).

The number of Directors who will receive stock compensation under the Plan (excluding non-executive Directors and Directors residing overseas; hereinafter the same applies within this Proposal) will be six (6) if Proposal 1: Election of Ten (10) Directors is approved as originally proposed.

2. Amounts of Compensation and Details of the Plan

(1) Outline of the Plan

Using the amount of compensation for Directors that is contributed by the Company, the Company's shares are acquired via the Trust. The Plan is a stock compensation plan that delivers or pays (hereinafter "deliver(y), etc.") the Company's shares acquired by the Trust and money equivalent to the converted value of such shares (hereinafter "the Company's shares, etc.") to the Directors (detailed in (2) and thereafter).

1) Persons who are eligible for delivery, etc. of the Company's shares, etc., under this Proposal	• The Company's Directors (excluding non-executive Directors and Directors residing overseas)
---	---

2) Impact of the Company's shares subject to this Proposal to the total number of the Company's shares issued	
Maximum total trust money contributed by the Company (as indicated in (2) below)	• A total of ¥400 million during three business years
Maximum number of the Company's shares, etc.,	• Maximum number of points (number of shares) granted to Directors during the Trust period:

delivered, etc., to Directors and method to acquire the Company's shares (as indicated in (2) and (3) below)	0.4 million points (shares) per year, which is approximately 0.03% of the total number of shares issued as of March 31, 2017 (after deduction of treasury shares) • Dilution of shares does not occur because the Company's shares will be acquired in the stock market.
3) Performance-linked factors and indicators (as described in (3) below)	• Range from 0 to 200% according to the degree of attainment of the Company's performance targets for each business year (consolidated ordinary income and consolidated ordinary profit, etc.)
4) Timing of delivery, etc., of the Company's shares, etc. (as indicated in (4) below)	• At the time of retirement as a Director

(2) Maximum total trust money contributed by the Company

The Plan applies to three consecutive business years.

During each trust period, the Company contributes money at a maximum total of ¥400 million as compensation to Directors and establishes a trust (hereinafter the "Trust") for a three-year trust period, with the beneficiaries as Directors who satisfy the beneficiary requirements. The initial trust period shall be approximately three years from August 2017 to August 31, 2020. If the trust period is extended as explained below, the subsequent three years.) Following the instructions of the trust administrator, the Trust acquires the Company's shares from the stock market using the money entrusted. During the Trust period, points are awarded to Directors (as indicated in (3)) and the Company's shares, etc., are delivered, etc., through the Trust.

At the expiration of the trust period, instead of establishing a new trust, the Company may continue the Trust by making amendments to the trust agreement and additional contributions to the Trust. In such a case, the trust period of the Trust shall be extended for the same duration as the initial trust, that is, the subsequent three years being the trust period after the extension. For each extended trust period, the Company shall make an additional contribution within the maximum total of ¥400 million and continue to award points and delivery, etc., the Company's shares, etc., to the Directors during the extended trust period. However, when making such an additional contribution, if there are remaining Company shares (excluding those corresponding to the number of points awarded to each Director that are not yet delivered to the Directors) and remaining money (hereinafter "remaining shares, etc.") within the trust assets at the end date of the Trust prior to its extension, the sum of the remaining shares, etc., and the money to be additionally contributed to the Trust shall be within the maximum total of ¥400 million.

Also, in case Directors who may satisfy the beneficiary requirements are still incumbent at the expiration of the trust period, although no points shall be awarded to such Directors after the expiration, the trust period of the Trust may be extended up to the designated limit until the completion of the delivery, etc., of the Company's shares, etc., to these Directors.

(3) Calculation method and the maximum total number of the Company's shares, etc., that are delivered, etc., to Directors

The number of the Company's shares, etc., that are delivered, etc., to Directors is determined based on the share delivery points which is calculated using the following formula.

The number of the share delivery points shall be determined as one share per point. In the event of an increase or decrease in the number of the Company's shares held in the Trust due to a share split, gratis allotment of shares or a share consolidation, etc., the Company will make an adjustment to the number of the Company's shares, etc. to be delivered, etc. for each point in accordance with the ratio of such increase or decrease.

The maximum total number of points awarded to Directors during the trust period of the Trust shall be 0.4 million points a year. This maximum total number of points awarded to Directors was determined based on the maximum total trust money indicated in (2) above and the Company's most recent stock price.

(Calculation formula for the number of the share delivery points)

Sum of the accumulated Fixed Points and the accumulated Performance-Based Points as of the date when the beneficiary requirements, such as retirement, are met

(Fixed Points)

To Directors in office during each year within the trust period, at a certain timing each year, points are awarded at the number calculated using the following formula.

Monthly compensation amount by rank¹ × Fixed Points composition ratio¹ ÷ Average closing price² of the Company's share on the Tokyo Stock Exchange in April of a business year (for the initial Trust period, however, it will be in July 2017) that includes the start date of the trust period

(Performance-Based Points)

To Directors in office during each year within the trust period, at a certain timing each year, points are awarded at the number calculated using the following formula according to the rank and the degree of attainment of the prior year's performance targets of the Company.

Monthly compensation amount by rank¹ × Performance-Based Points composition ratio¹ × performance-linked factors³ ÷ Average closing price² of the Company's share on the Tokyo Stock Exchange in April of a business year (for the initial Trust period, however, it will be in July 2017) that includes the start date of the trust period

1. The "Monthly compensation amount by rank," the "Fixed Points composition ratio" and the "Performance-Based Points composition ratio" are determined by taking into account such factors as the rank of the Director, executive remuneration, the ratio of cash remuneration to the total remuneration and the ratio of stock compensation to the total remuneration, and the ratio of Performance-Based compensation.
2. Decimal values arising in Fixed Points and Performance-Based Points shall be truncated.
3. Performance-linked factors range from 0 to 200% according to the degree of attainment of the Company's performance targets for each business year, which is evaluated using such indicators as consolidated ordinary income and consolidated ordinary profit, etc.

(4) Timing of the delivery, etc., of the Company's shares, etc., to Directors

In case a Director fulfills the beneficiary requirements due to retirement, the Director, at the time of his/her retirement, shall receive the delivery, etc. of the Company's shares, etc. corresponding to the number of his/her share delivery points calculated using (3) above. (Provided, however, there is a possibility that a certain percentage of the Company's shares granted to the Director may be converted into money equivalent to the converted value of such shares within the Trust and paid to the Director.)

In the event that the beneficiary requirements are met because of the passing of a Director during the trust period, in principle, all the Company's shares in the number that corresponds to the points delivered at the point of such passing shall be converted into money equivalent to the converted value thereof within the Trust, then such money shall be provided from the Trust to the heir of the Director. In the event that the beneficiary requirements are met because it was decided during the trust period that the Director is to assume a position overseas and reside outside Japan, in principle, all the Company's shares in the number that corresponds to the points delivered at the point of such a decision shall be converted into money equivalent to the converted value thereof within the Trust, then such money shall be provided to the Director.

(5) Voting rights pertaining to the Company's shares

Exercise of voting rights pertaining to the Company's shares in the Trust will not be exercised during the trust period to ensure neutrality to company management.

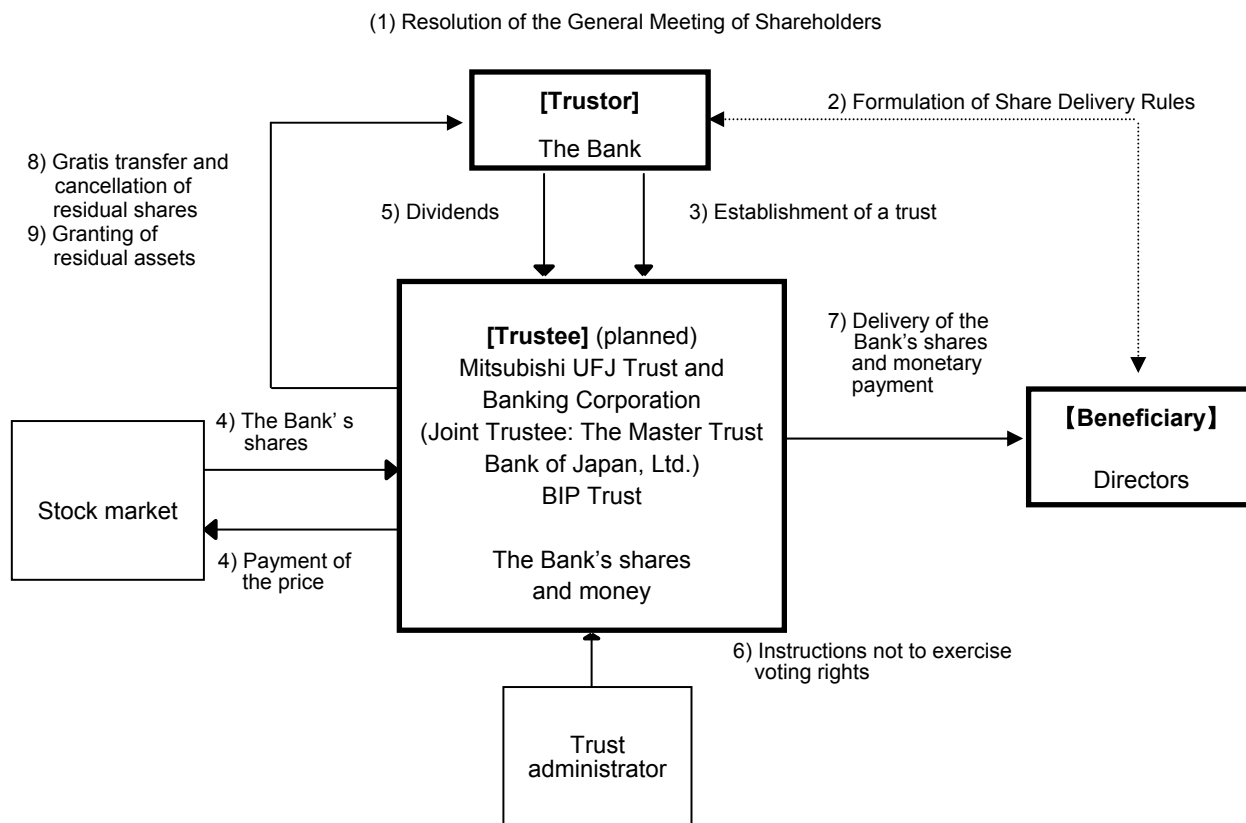

(6) Other details of the Plan

Other matters regarding the Plan shall be determined by resolution of the Board of Directors at the time of establishing the Plan and at the time of making amendments to the trust agreement and additionally contributing to the Trust.

For the details of the Plan, please refer to the "Notice Concerning the Introduction of Performance-Based Stock Compensation Plan to Directors of the Bank" (Reference below: Excerpt from the press release as of May 12, 2017).

Reference: Excerpt from the press release as of May 12, 2017

Framework of the Plan

- 1) The Bank obtains resolution for approval of the introduction of the Plan as executive remuneration at the Meeting.
- 2) Concerning the introduction of the Plan, the Bank establishes the Share Delivery Rules related to executive remuneration at the meeting of the Board of Directors.
- 3) The Bank establishes a trust with Directors who meet the beneficiary requirements as the beneficiaries such as retirement (the "Trust") by entrusting money to the trustee within the limit as approved by the resolution of the Meeting in 1).
- 4) The Trustee follows the instructions of the trust administrator and acquires the Bank's shares from the stock market using the money contributed in 3).
- 5) Dividends on the Bank's shares held in the Trust are also paid in the same manner as the other shares of the Bank.
- 6) No voting rights shall be exercised on the Bank's shares held in the Trust during the trust period.
- 7) During the trust period, the Bank's shares, etc., shall be delivered, etc., from the Trust to the Directors who meet the beneficiary requirements (such as retirement, etc.) in accordance with the Share Delivery Rules.
- 8) If there are residual shares at the expiry of the trust period, due to reasons such as underachievement of performance targets during the trust period, the Bank will either:

continuously use the Trust for the Plan, or as another incentive plan similar to the Plan, by making amendments to the trust agreement and additionally contributing to the Trust, or transfer the residual shares from the Trust to the Bank without payment, acquire them without payment and cancel them by resolution of the Board of Directors.

- 9) Upon termination of the Trust, residual assets remaining after the distribution to the beneficiaries will be reverted back to the Bank within the reserve for trust expenses at the amount after deducting the share acquisition fund from the trust money. Any portion in excess of the reserve for trust expenses will be donated to organizations with no interest in the Bank and the Directors.

Note: In cases where during the trust period, there is a possibility that the number of the Bank's shares within the Trust becomes less than the number of shares corresponding to the number of points determined for each Director for the delivery, etc., of the Bank's shares, or that money within the Trust becomes insufficient to pay the trust fees and trust expenses, the Bank may additionally entrust money to the Trust within the amount of trust money.

Business Report for the 16th Fiscal Period (from April 1, 2016 to March 31, 2017)

1 Matters concerning the current status of the Company

1. Business developments and outcomes

Description of main businesses

Seven Bank (the “Company”) provides a range of cash deposit and withdrawal services via a highly convenient Automated Teller Machine (ATM) network operating 24 hours a day, 365 days a year. The ATM network consists of ATMs at airports, train stations and outlets of banking and financial institutions, as well as retail outlets including 7-Eleven and Ito-Yokado, which belong to the Seven & i Group (the “Group”), backed by partnerships with a wide variety of financial institutions including regular banks, *shinkin* banks, credit cooperatives, labor banks, JA Bank, JF Marine Bank, Shoko Chukin Bank, securities companies, life insurance companies, credit card companies and consumer finance companies.

The Company also provides close and convenient bank account services including ordinary deposits, time deposits, loan services, international money transfer services and debit services accessible from more than 23,000 ATMs nationwide, PCs and smartphones.

Economic and Financial environment

During the fiscal year under review, the Japanese economy continued to stay on a moderate recovery path with the effect of the economic measures by the Japanese government. The financial environment remained substantially saturated with corporations’ fund procurement costs staying low.

Business developments and outcomes for the fiscal year under review

(1) ATM services

During fiscal 2016, Seven Bank aggressively promoted the installation of ATMs within and outside the Group to enhance the convenience for customers.

Also during fiscal 2016, we established new partnerships with THE OKINAWA KAIHO BANK, LTD. (August 2016), as well as one *shinkin* bank, three credit cooperatives, one securities company and four other financial institutions. As a result, as of March 31, 2017, we partnered with 124 banks¹, 261 *shinkin* banks², 130 credit cooperatives³, 13 labor banks, JA Bank, JF Marine Bank, Shoko Chukin Bank, 12 securities companies⁴, 8 life insurance companies and 50 other financial institutions⁵, totaling 601 businesses⁶.

Within the Group, we have installed ATMs along with new 7-Eleven store openings and steadily increased the number of ATMs installed. As for operations outside the Group, to address customer needs, we aggressively promoted the installation of ATMs inside each facility for transportation, logistics and tourism.

In addition, to further enrich ATM services, in March 2017 we started to provide a service that allows ATM deposit and withdrawal transactions using only a smartphone without using a cash card.

As a result of such initiatives, the number of our ATMs installed reached 23,368 (up 3.9% compared with the end of March 2016). The average daily transactions per ATM were 95.5 (down 3.3% year over year), and a total of 796 million transactions were recorded (up 1.7% year over year).

- Notes:
1. Compared with the 123 banks with which we had partnerships at the end of March 2016, one bank was newly added as a partner, resulting in 124 bank partnerships at the end of March 2017.
 2. Compared with 261 *shinkin* banks with which we had partnerships at the end of March 2016, one *shinkin* bank was newly added as a partner, and one *shinkin* bank ceased to be a partner due to a merger, resulting in 261 partnerships at the end of March 2017.
 3. Compared with 129 credit cooperatives with which we had partnerships at the end of March 2016, three credit cooperatives were newly added as partners, and two credit cooperatives ceased to be partners due to a merger, resulting in 130 partnerships at the end of March

2017.

4. Compared with 11 securities companies with which we had partnerships at the end of March 2016, one securities company was newly added as a partner, resulting in 12 partnerships at the end of March 2017.
5. Compared with 47 other financial institutions with which we had partnerships at the end of March 2016, four financial institutions were newly added as partners, and one financial institution ceased to be a partner due to cancellation of partnership, resulting in 50 partnerships at the end of March 2017.
6. JA Bank and JF Marine Bank are each counted as one institution.

Change in Number of ATMs

(Unit: number of ATMs)

Change in Number of ATM Transactions

(Unit: millions of transactions)

(2) Financial services business

The Company had 1,690 thousand individual customer accounts at the end of March 2017 (up 8.1% compared with the end of March 2016), a balance of deposits of 396,800 million yen (up 1.8% year over year) and a balance of personal loan services of 19,800 million yen (up 22.3% year over year).

In October 2016, we started issuing cash cards with a debit function.

(3) Consolidated subsidiaries

As of December 31, 2016, the number of ATMs installed by FCTI, Inc., the Company's consolidated subsidiary in the United States, was 6,227. With regard to business results of FCTI, Inc. for the consolidated fiscal year (from January 2016 to December 2016), ordinary income was 77.6 million U.S. dollars, the ordinary loss was 6.6 million U.S. dollars and the net loss was 4.3 million U.S. dollars.

PT. ABADI TAMBAH MULIA INTERNASIONAL, the Company's consolidated subsidiary in Indonesia, promoted installation of ATMs. As of December 31, 2016, the number of ATMs installed by PT. ABADI TAMBAH MULIA INTERNASIONAL was 127.

Bank Business Factory Co., Ltd, the Company's domestic consolidated subsidiary, is developing businesses of back-office support on commission not only for the Company but also for other financial institutions.

(4) Operating results

Results of our operation in fiscal 2016 achieved ordinary income of 113,109 million yen (up 2.3% year over year), ordinary profit of 38,911 million yen (down 0.2% year over year) and net income of 26,871 million yen (up 2.9% year over year).

Although the total number of ATM transactions steadily grew mainly due to the increase in the number of our ATMs installed, revenues increased but profits declined because of increased ordinary expenses.

The Company's consolidated ordinary income for the year under review was 121,608 million yen (up 1.3% year over year), consolidated ordinary profit was 36,710 million yen (down 1.2% year over year), and net income attributable to owners of the parent was 25,114 million yen (up 1.6% year over year).

(5) Assets, liabilities and net assets

Total assets at the end of March 2017 were 955,644 million yen. The majority of this total comprised cash and due from banks required for the operation of ATMs of 685,766 million yen.

The remainder mostly consisted of marketable securities of 102,533 million yen held as collateral for foreign exchange settlements and Bank of Japan current account overdraft transactions, and 89,259 million yen representing ATM-related temporary payments, which are temporary advances from partner financial institutions.

Liabilities were 756,042 million yen. These largely comprised deposits (excluding negotiable certificates of deposit) totaling 571,553 million yen. Of these, the outstanding balance of individuals' ordinary deposits was 245,245 million yen and the balance of individuals' time deposits was 151,632 million yen.

Net assets were 199,602 million yen. Of these, retained earnings were 137,706 million yen.

Issues the Company needs to cope with

In fiscal 2017, our earnings environment is predicted to continue to be strong mainly because the number of our ATMs to be installed is expected to grow along with the opening of more 7-Eleven stores and further development outside the Group. On the other hand, changes in domestic and overseas macro economies and the increasingly diverse settlement methods as technologies evolve could affect our earnings.

To achieve our sustainable growth under these circumstances, we recognize as a crucial issue the need to create a broad-based earnings structure. To solve the issue, we formulated the Medium-Term Management Plan with fiscal 2019 as its final year.

Positioning the period for the Medium-Term Management Plan as a phase for establishing foundations for sustainable growth of the Company, we will strive for business expansion by strengthening the following three businesses.

- 1) ATM platform business;
- 2) Settlement and account business; and
- 3) Overseas business

Specific initiatives for the above are as follows:

(1) ATM platform business

Positioning our nationwide ATM infrastructure with more than 23,000 units as our platform, we will develop initiatives to increase the number of business partners and customers. Specifically, mainly by providing new services for our existing partner financial institutions and by providing services that cater to businesses that have newly entered the settlement market, we will strive to create ATM utilization styles that transcend convention and explore new markets.

In addition, while continuing the steady installation of ATMs within the Group, we will aggressively promote the installation of high-operability ATMs outside the Group as well, primarily at each center of transportation, logistics and tourism. Through these initiatives, we will strive to enrich both the quality and quantity of our ATM platform as we expand our ATM services.

(2) Settlement and account business

In addition to improving convenience and enhancing profitability of our existing services such as personal loan services and international money transfer services, we will strive to further increase earnings by developing our proprietary services utilizing new technologies. We will also promote initiatives to provide new financial services such as a settlement service for as many as 22 million customers a day who visit stores of the Group.

(3) Overseas business

In fiscal 2017, FCTI, Inc., the Company's consolidated subsidiary in the United States, will start installing ATMs inside 7-Eleven stores all over the United States. We will strive to ensure steady ATM operation, pursue synergies with 7-Eleven, Inc. (U.S.) and aim to provide new services as well. In our efforts to expand in Indonesia and other regions, we will optimize the Company's know-how and infrastructure to develop our overseas business.

Through these initiatives, compared with fiscal 2016, we will strive to create another ¥40.0 billion of ordinary income and ¥8.0 billion of ordinary profit in fiscal 2019, the final year of the Medium-Term Management Plan.

Finally, by effectively utilizing the profits to be created by business operations in accordance with the Medium-Term Management Plan, the Company will conduct aggressive investments in new fields toward further growth and make the necessary preparations against risks that may affect our business continuity as an infrastructure business operator, while also steadily enhancing shareholder returns. In light of our future growth strategies and profitability prospects, we will raise our existing minimum payout ratio of 35% or more to 40% or more and strive for a stable and continuing increase in the amount of dividend.

Through these initiatives, the Company intends to develop its growth strategies based on the Medium-Term Management Plan and strive to further improve corporate value.

We look forward to your continued support and guidance.

7 Basic policy concerning the current status of persons supervising the determination of financial and operational policy

The Company's policy is to ensure that suitable measures are taken to ensure the continued growth of the Company's business, the strengthening of its corporate governance and the maximization of its corporate value.

8 System for ensuring the suitable maintenance of operations

It was resolved at a Board of Directors' meeting held on May 8, 2006, that the relevant steps would be taken to ensure the suitable maintenance of operations of the Company in accordance with Article 362, Paragraph 4, Item 6, of the Companies Act. In regard to this resolution, each fiscal year the Company undertakes a review of the progress made toward this end. An outline of the review follows:

- 1) System for ensuring that the execution of their duties by Directors is carried out in accordance with the law and the Articles of Incorporation
The Board of Directors has established a "Basic Policy on Compliance" and "Compliance Standards" for the implementation of compliance as regards management. The Directors regularly report to the Board of Directors on the current state of progress made on compliance initiatives.
- 2) System for the storage and control of information related to the execution by Directors of their duties
The information related to the execution by Directors of their duties is to be appropriately stored and controlled without fail, and prompt disclosure of the information is to be made in cases where there is a request made either by Directors or Audit & Supervisory Board Members.
- 3) Regulations and other structures for controlling the risk of loss
The Board of Directors has established a "Basic Policy on Risk Control" comprising systematic provisions for risk control with the aim of securing a sound and effective management for the appropriate control of the Company's operational risk. The Directors regularly report to the Board of Directors about issues related to risk control.
- 4) System for ensuring the efficient execution of their duties by Directors
The Board of Directors aims to ensure its efficient operation by establishing "Rules for the Board of Directors" and by making provisions for important issues to be placed on its agenda and suitably reported. The Board of Directors has established the Executive Committee for the efficient determination of operational policy initiatives and introduced an executive officer system with the aim of achieving the smooth and efficient implementation of such initiatives.
- 5) System for ensuring that the execution of duties by employees is carried out in accordance with the law and the Articles of Incorporation
The Directors have established an appropriate compliance system based on the "Basic Policy on Compliance" and "Compliance Standards." The Directors bear ultimate responsibility for the creation of structures to ensure compliance in the execution of employees' duties, determination of policy, execution of such policies, verification of their implementation status and assessment of the policies.
- 6) Structure for the maintenance of the appropriateness of the Group's operations
The Directors and employees of the Company, as members of the Seven & i Holdings Group sharing the Group's management philosophy, are united in striving to promote a law-abiding attitude. With the aim of prioritizing the soundness of the Company's management, the Company has established a structure for independent management decision making while continuing to adhere to the arm's-length rule and other measures. To ensure the appropriateness of operations conducted by the Group consisting of the Company and its subsidiaries, the Board of Directors formulates the "Basic Policy to Manage Subsidiaries," and, based on such "Basic Policy to Manage Subsidiaries," Directors put a structure in place to manage subsidiaries appropriately.
- 7) Items concerning relevant employees in the case of requests from Audit & Supervisory Board Members for the deployment of the Company's employees to support the role of Audit & Supervisory Board Members
The Company shall install the Audit & Supervisory Board Members' Office and deploy employees dedicated for the Audit & Supervisory Board Members' Office to support the

role of Audit & Supervisory Board Members. In addition, the Directors shall, when requested by the Audit & Supervisory Board Members, have employees assist with the audit function.

- 8) Items concerning the independence of the Company's employees dedicated to the Audit & Supervisory Board Members' Office from the Directors
Concerning the employees dedicated to the Audit & Supervisory Board Members' Office, the Officers in charge of the Human Resources Division should preliminarily report to, and gain prior approval of, the full-time Audit & Supervisory Board Members concerning personnel transfers, performance evaluations of the personnel and disciplinary actions.
- 9) Items concerning ensuring the effectiveness of instructions given to the employees who assist Audit & Supervisory Board Members with their audit duties
The Company shall ensure the appropriate number of employees dedicated to the Audit & Supervisory Board Members' Office and the authority to give instructions and orders to such employees shall belong to the Audit & Supervisory Board Members. Concerning the employees dedicated to the Audit & Supervisory Board Members' Office, the Officers in charge of the Human Resources Division should preliminarily report to, and gain prior approval of, the full-time Audit & Supervisory Board Members concerning personnel transfers, performance evaluations of the personnel and disciplinary actions. Moreover, the employees dedicated to the Audit & Supervisory Board Members' Office shall have an authority to investigate the appropriateness of duties and collect necessary information.
- 10) System for reports to the Company's Audit & Supervisory Board Members made by Directors and employees
Directors shall receive explanation as necessary from the Audit & Supervisory Board regarding the audit policy, the audit plan, the status of implementation of audits and the audit results. Directors shall determine the issues that should be reported to the Audit & Supervisory Board by consulting with the Audit & Supervisory Board, and shall duly make their report to the Audit & Supervisory Board. Directors and employees shall promptly report to the Audit & Supervisory Board Members matters that have a significant impact on the overall company, the status of implementation of internal audits and important matters related to compliance in addition to legal issues. With regard to subsidiaries, a department in charge of subsidiaries shall be installed inside the Company and such a department shall receive reports from directors and employees of the subsidiaries regarding each subsidiary's business operation and internal management related to compliance and risk management and other situations. The content reported from subsidiaries to the department shall be reported by the department to the Audit & Supervisory Board Members as necessary.
- 11) System for ensuring that persons who report to the Audit & Supervisory Board Members do not receive unreasonable treatment because of the reporting
As a system to ensure that persons who report to the Audit & Supervisory Board Members do not receive unreasonable treatment because of the reporting, the Company shall streamline the related internal rules and appropriately implement such rules.
- 12) Matters related to the procedures for prepayment or reimbursement of expenses incurred by the execution of duties by the Audit & Supervisory Board Members or policies related to other processing of expenses or obligations incurred by execution of duties by the Audit & Supervisory Board Members
Concerning expenses for regular audit duties, a relevant budget shall be made according to the audit plan formulated by the Audit & Supervisory Board Members. With regard to expenses for emergency audits or extraordinary expenses, the reimbursement of such expenses can be requested afterward.
- 13) Other systems for ensuring the effectiveness of audits by the Audit & Supervisory Board Members
Directors and the Internal Audit Division shall regularly hold meetings with the Audit &

Supervisory Board, exchange opinions concerning important audit issues, etc., and deepen mutual understanding.

14) Status of operation of the structure for the maintenance of the appropriateness of the Group's operations

a. Compliance system

The Company has a Compliance Committee installed for the purpose of inspecting and evaluating the company-wide compliance from the perspective of comprehensive management and operation. During the fiscal year under review, the Compliance Committee met four times, understanding compliance-related issues and discussing the measures to address such issues.

Furthermore, during the fiscal year under review, various kinds of training were conducted concerning "reinforcement of the stance for information management" as a priority issue under a compliance program of the Company.

b. Risk management system

The Company has a Risk Management Committee installed for the purpose of deliberating on important matters regarding the status of risk management reported from the Risk Management Division controlling each risk and reporting the content to the Executive Committee. During the fiscal year under review, the Risk Management Committee met five times, receiving reports from the Risk Management Division controlling each risk concerning the risk management status and evaluation, etc., and discussing measures to address such risks.

c. Execution of duties by Directors

During the fiscal year under review, the Board of Directors held 13 meetings to determine matters stipulated by laws and regulations, as well as the Company's Articles of Incorporation. In addition, the board determined management policy, formulated a budget and determined other important managerial matters; analyzed and evaluated monthly business performance; and deliberated from the perspectives of compliance with laws, regulations and the Company's Articles of Incorporation, as well as the appropriateness of business duties.

In addition, during the fiscal year under review, the Board of Directors implemented measures to enrich the content of deliberation and enhance the efficiency of deliberation, such as explaining to Outside Directors beforehand on certain issues that might have a significant effect on management and making efforts to further deepen an understanding of the Company's business operation.

d. Group management structure

Regarding the subsidiaries' business plans that the Company approved, the Company gives the subsidiaries some room for their discretion in the execution of business within the approved range. Then, the Board of Directors, at its meetings, shall receive reports from directors, etc., of subsidiaries regarding the status of management, etc., of such subsidiaries to understand the current situation. In addition, the Company's Internal Audit Division regularly audits business operation of subsidiaries.

e. Execution of duties by the Audit & Supervisory Board Members

The Company's Audit & Supervisory Board consists of four Audit & Supervisory Board Members including two Outside Audit & Supervisory Board Members. During the fiscal year under review, the Audit & Supervisory Board held 14 meetings, receiving reports from full-time Audit & Supervisory Board Members with regard to the current status of the Company and exchanging opinions among the Audit & Supervisory Board Members. In addition, the Audit & Supervisory Board Members attend important meetings such as Board of Directors meetings and the Executive Committee meetings, regularly exchanging information with Representative Directors, the Accounting Auditor and the Internal Audit Division, thereby monitoring Directors' execution of duties.

f. Ensuring the effectiveness of audits by the Audit & Supervisory Board Members

To support the role of the Audit & Supervisory Board Members, the Company has the Audit & Supervisory Board Members' Office with two employees dedicated to the office, assisting the Audit & Supervisory Board Members with their duties.

Directors receive explanation as necessary from the Audit & Supervisory Board regarding the audit policy, the audit plan, the status of implementation of audits and the audit results. Directors determine the issues that should be reported to the Audit &

Supervisory Board by consulting with the Audit & Supervisory Board, and they are duly reporting to the Audit & Supervisory Board.

Directors and employees of the Company and directors and employees of the subsidiaries report to the Audit & Supervisory Board Members as necessary regarding matters that have a significant impact on the overall company, the status of implementation of the internal audits and important matters related to compliance in addition to legal issues.

Policy concerning the exercise of authority granted to the Board of Directors by the provisions of the Articles of Incorporation under the terms of Article 459, Paragraph 1, of the Companies Act

One of the most important aspects of the Company's management policy is the return of profits to shareholders; therefore, it is a key policy of the Company to strive to ensure that a stable dividend is continuously paid from reserves while taking into consideration the need to achieve a balance between ensuring an appropriate level of return of profits to shareholders and retained earnings. The Company's basic policy is the targeting of an annual minimum payout ratio of 35% and the payment of dividends twice (i.e., an interim dividend and a year-end dividend) during the fiscal year.

Explanatory Notes

Amounts of less than one million yen have been discarded.

Significant accounting policies

1. Basis and methodology for the valuation of securities

As for valuation of securities, stocks of subsidiary firms and subsidiary corporations are stated at cost using the moving-average method and available-for-sale securities are stated, in principle, at their market values at the balance sheet date (realized gains or losses on sales of such securities are computed using primarily the moving-average method). Provided, however, that available-for-sale securities whose fair market value is deemed to be extremely difficult to identify are stated at cost using the moving-average method. Unrealized gains and losses on available-for-sale securities are reported as a separate component of net assets.

2. Method for calculating depreciation of fixed assets

(1) Tangible fixed assets

Depreciation of tangible fixed assets is calculated by the straight-line method.

Estimated useful lives of major items are as follows:

Buildings:	6–18 years
ATMs:	5 years
Others:	2–20 years

(2) Intangible fixed assets

Intangible fixed assets are amortized using the straight-line method. Software utilized by the Company is amortized over the period in which it is expected to be utilized (five years).

3. Translation of assets and liabilities denominated in foreign currencies

Assets and liabilities denominated in foreign currencies are translated into Japanese yen mainly at the exchange rate prevailing at the balance sheet date excluding stocks of subsidiary firms and subsidiary corporations, which are translated into Japanese yen at the exchange rate prevailing at the time of their acquisition.

4. Provisioning standards

(1) Allowance for losses

An allowance for losses is provided as detailed below in accordance with the Company's internal standards for write-offs and provisions.

For credits to obligors classified as normal obligors or watch obligors, on the basis of expected loss ratios and other factors, and defined according to fixed categories, the allowance for losses is provided based on the Company's estimated rate of credit losses in accordance with the "Administrative guidelines concerning the self-assessment of assets, bad debt amortization and bad debt reserves for banks and other financial institutions" (Bank Audit Special Committee Report No. 4 issued on July 4, 2012, by The Japanese Institute of Certified Public Accountants (JICPA)). For credits to obligors classified as bankruptcy risk obligors, the allowance for losses is provided for estimated unrecoverable amounts determined after excluding the portion that is estimated to be recoverable due to available security interests and guarantees. For credits to obligors classified as substantially bankrupt obligors or bankrupt obligors, the allowance for losses is provided in the full amounts of such credits, excluding the portion that is estimated to be recoverable due to available security interests and guarantees.

The Company's Risk Management Division, which is independent from the Company's other divisions, evaluates all credits in accordance with its internal rules for self-assessment of assets, and its evaluations are audited by the Internal Audit Division, which is independent from the Company's other divisions and the Risk Management Division. The allowance is provided based on the results of these assessments.

(2) Reserve for bonuses

The Company records a reserve for bonuses for employees in the amount of estimated bonuses attributed to the relevant fiscal year.

(3) Employees' severance and retirement benefits

Reserve for employees' severance and retirement benefits is provided for possible payment of employees' retirement benefits at the amount to be accrued at the balance sheet date, and is calculated based on projected benefit obligations and the related plan assets as of the fiscal year-end. In calculating the projected benefit obligations, the benefit formula basis is used to allocate the projected retirement benefits to the years of service up to the end of the fiscal year under review.

Net actuarial difference is amortized as follows:

Net actuarial difference:	Amortized using the straight-line method over 10 years within the employees' average remaining service period at the time of occurrence, commencing from the next fiscal year of occurrence.
---------------------------	--

For the fiscal year under review, as the projected plan assets exceeded the amount at which the projected benefit obligations were adjusted for the unrecognized prior service cost and the unrecognized actuarial differences, the excess was recorded as prepaid pension cost in the balance sheet.

5. Method of accounting for hedge transactions

Interest rate risk hedges

For some liabilities, we have employed a special accounting treatment for interest rate swaps. For hedges designed to reduce the impact of volatility in the market for variable interest rates, we have individually identified the hedge target and designated interest rate swap trades as hedge transactions.

6. Consumption taxes

National and local consumption taxes are accounted for using the tax-excluded method.

Additional information

The Company applied the “Revised Implementation Guidance on Recoverability of Deferred Tax Assets” (ASBJ Guidance No. 26 issued on March 28, 2016) from the fiscal year under review.

Important notes

(Balance sheet)

1. Total amount of stocks (and capital stock) of subsidiaries and affiliates: 24,667 million yen
2. Among the loans receivable, credits to bankrupt obligors were 1 million yen, and loans in arrears were 64 million yen.

“Credits to bankrupt obligors” refers to loans receivable for which accrued interest was not declared on the grounds that there are no prospects for the collection or repayment of the principal or interest because the payment of the principal or interest has been continually in arrears for a considerable period of time or for other such reasons (excluding the written-off portion; hereinafter referred to as “loans with undeclared accrued interest”) that correspond to any of the situations referred to in (a) through (e) of Paragraph 1, Item 3 of Article 96 of the Order for Enforcement of the Corporation Tax Act (Cabinet Order No. 97, 1965) or the situation referred to in Paragraph 1, Item 4 of said Article.

“Loans in arrears” refers to loans with undeclared accrued interest other than credits to bankrupt obligors and loans for which an interest payment grace period has been granted for the purpose of reestablishing or assisting the business of the obligor.
3. Loans receivable do not include loans in arrears for three months or more.

“Loans in arrears for three months or more” refers to loans for which the payment of the principal or interest has been in arrears for three months or more counting from the day after the due date agreed upon, excluding credits to bankrupt obligors and loans in arrears.
4. Loans receivable do not include restructured loans.

“Restructured loans” refers to loans for which reduction of interest, interest payment grace period, principal repayment grace period, debt forgiveness or other such arrangements that are advantageous to the obligor have been made for the purpose of reestablishing or assisting the business of the obligor, excluding credits to bankrupt obligors, loans in arrears and loans in arrears for three months or more.
5. Total amount of credits to bankrupt obligors, loans in arrears, loans in arrears for three months or more and restructured loans is 65 million yen. The amounts of credits stated in Nos. 2 to 5 above are amounts prior to the deduction of the allowance for losses.
6. For the purposes of settlement and Bank of Japan current overdraft transactions, securities of 74,940 million yen in available-for-sale securities have been provided. Also, 844 million yen in guarantees are included in Other Assets.
7. An overdraft agreement is an agreement to lend funds up to a certain limit if a financing request is received from a customer, unless there is any violation of the terms and conditions of the agreement. The unused balance of funds under such agreements is 8,065 million yen. This includes the unused balance of funds in the amount of 8,065 million yen under agreements in which the original term is one year or less.
8. Accumulated depreciation for tangible fixed assets 44,961 million yen
9. Total monetary claims on subsidiaries and affiliates 108 million yen
10. Total monetary liabilities payable to subsidiaries and affiliates 31,639 million yen

11. Restriction on dividends from retained earnings in accordance with Article 18 of the Banking Law

When paying a dividend from retained earnings, despite the provisions of the Companies Act Article 445, Paragraph 4 (amount of capital and amount of reserves), on payment of a dividend from retained earnings, one fifth of the amount by which retained earnings has been reduced is to be accounted as legal capital surplus or retained earnings.

No amount is accounted for in legal capital surplus and in retained earnings associated with the dividends to be paid from retained earnings during this fiscal year.

Explanatory Notes (Consolidated)

Amounts of less than one million yen have been discarded.

Basis of Presenting Consolidated Financial Statements

The definition of "subsidiary firms," "subsidiary corporations" and "affiliates and others" is as set forth in Article 2, Paragraph 8 of the Banking Law and Article 4-2 of the Order for Enforcement of the Banking Law.

1. Scope of consolidation

- (1) Number of consolidated subsidiary firms and subsidiary corporations: 4
Name of the subsidiary firm (corporation): FCTI, Inc., FCTI Canada, Inc., PT. ABADI TAMBAH MULIA INTERNASIONAL and Bank Business Factory Co., Ltd.
- (2) Unconsolidated subsidiary firms and subsidiary corporations:
Not applicable

2. Application of the equity method

Not applicable

3. Business years, etc., of the consolidated subsidiary firms and subsidiary corporations

- (1) Closing date for the settlement of accounts of the consolidated subsidiary firms and subsidiary corporations is as follows:
December 31: 3 companies
March 31: 1 company
- (2) In preparing the consolidated financial statements, the financial statements as of their respective balance sheet dates are used with regard to the consolidated subsidiary firms and subsidiary corporations. The financial statements of said companies are provided with necessary adjustments for consolidation purposes with regard to material transactions between the closing date (December 31) above and the consolidated closing date (March 31).

4. Amortization of goodwill

Goodwill is equally amortized using the straight-line method over a period of 10 years. However, if the amount is insignificant, the corresponding goodwill is recorded as an expense at the time of occurrence.

5. Accounting policies

- (1) Basis and methodology for the valuation of securities
As for valuation of securities, available-for-sale securities are stated, in principle, at their market values at the consolidated balance sheet date (realized gains or losses on sales of such securities are computed using primarily the moving-average method). Provided, however, that available-for-sale securities whose fair market value is deemed to be extremely difficult to identify are stated at cost using the moving-average method.
Valuation difference on available-for-sale securities are reported as a separate component of net assets.
- (2) Method for calculating depreciation of fixed assets
 - 1) Tangible fixed assets
Depreciation of tangible fixed assets of the Company is calculated by the straight-line method.
Estimated useful lives of major items are as follows:
Buildings: 6–18 years
ATMs: 5 years
Others: 2–20 years
Depreciation of the tangible fixed assets of the consolidated subsidiary firms and subsidiary corporations is calculated by the straight-line method over the estimated useful lives of the assets.
 - 2) Intangible fixed assets
Intangible fixed assets are amortized using the straight-line method. Software utilized by the Company and its consolidated subsidiary firms and subsidiary corporations is amortized over the period in which it is expected to be utilized (mainly five years).

(3) Provisioning standards

1) Allowance for losses

An allowance for losses is provided as detailed below in accordance with the Company's internal standards for write-offs and provisions.

For credits to obligors classified as normal obligors or watch obligors, on the basis of expected loss ratios and other factors, and defined according to fixed categories, the allowance for losses is provided based on the Company's estimated rate of credit losses in accordance with the "Administrative guidelines concerning the self-assessment of assets, bad debt amortization and bad debt reserves for banks and other financial institutions" (Bank Audit Special Committee Report No. 4 issued on July 4, 2012, by The Japanese Institute of Certified Public Accountants (JICPA)). For credits to obligors classified as bankruptcy risk obligors, the allowance for losses is provided for estimated unrecoverable amounts determined after excluding the portion that is estimated to be recoverable due to available security interests and guarantees. For credits to obligors classified as substantially bankrupt obligors or bankrupt obligors, the allowance for losses is provided in the full amounts of such credits, excluding the portion that is estimated to be recoverable due to available security interests and guarantees.

The Company's Risk Management Division, which is independent from the Company's other divisions, evaluates all credits in accordance with its internal rules for self-assessment of assets, and its evaluations are audited by the Internal Audit Division, which is independent from the Company's other divisions and the Risk Management Division. The allowance is provided based on the results of these assessments.

2) Reserve for bonuses

The reserve for bonuses is provided for employees in the amount of estimated bonuses attributed to the relevant consolidated fiscal year.

(4) Accounting procedure regarding employees' retirement benefits

In calculating the retirement benefit obligations, the benefit formula basis is used to allocate the projected retirement benefits to the years of service up to the end of the consolidated fiscal year under review. Net actuarial difference is amortized as follows:

Net actuarial difference:	Amortized using the straight-line method over 10 years within the employees' average remaining service period at the time of occurrence commencing from the next consolidated fiscal year of occurrence.
---------------------------	--

(5) Translation of assets and liabilities denominated in foreign currencies

The Company's assets and liabilities denominated in foreign currencies are translated into Japanese yen mainly at the exchange rate prevailing at the consolidated balance sheet date.

Assets and liabilities denominated in foreign currencies of subsidiary firms and subsidiary corporations are translated into Japanese yen mainly at the exchange rate prevailing at their respective balance sheet dates.

(6) Important method of accounting for hedge transactions

Interest rate risk hedges

For some liabilities we have employed a special accounting treatment for interest rate swaps. For hedges designed to reduce the impact of volatility in the market for variable interest rates, we have individually identified the hedge target and designated interest rate swap trades as hedge transactions.

(7) Consumption taxes

At the Company, as well as at the domestic consolidated subsidiary firms and subsidiary corporations, national and local consumption taxes are accounted for using the tax-excluded method.

Additional information

The “Revised Implementation Guidance on Recoverability of Deferred Tax Assets” (ASBJ Guidance No. 26 issued on March 28, 2016) was applied from the consolidated fiscal year under review.

Important notes

(Consolidated balance sheet)

- Among the loans receivable, credits to bankrupt obligors were 1 million yen, and loans in arrears were 64 million yen.
 “Credits to bankrupt obligors” refers to loans receivable for which accrued interest was not declared on the grounds that there are no prospects for the collection or repayment of the principal or interest because the payment of the principal or interest has been continually in arrears for a considerable period of time or for other such reasons (excluding the written-off portion; hereinafter referred to as “loans with undeclared accrued interest”) that correspond to any of the situations referred to in (a) through (e) of Article 96 Paragraph 1, Item 3 of the Order for Enforcement of the Corporation Tax Act (Cabinet Order No. 97, 1965) or the situation referred to in Paragraph 1, Item 4 of the said Article.
 “Loans in arrears” refers to loans with undeclared accrued interest other than credits to bankrupt obligors and loans for which an interest payment grace period has been granted for the purpose of reestablishing or assisting the business of the obligor.
- Loans receivable do not include loans in arrears for three months or more.
 “Loans in arrears for three months or more” refers to loans for which the payment of the principal or interest has been in arrears for three months or more counting from the day after the due date agreed upon, excluding credits to bankrupt obligors and loans in arrears.
- Loans receivable do not include restructured loans.
 “Restructured loans” refers to loans for which reduction of interest, interest payment grace period, principal repayment grace period, debt forgiveness or other such arrangements that are advantageous to the obligor have been made for the purpose of reestablishing or assisting the business of the obligor, excluding credits to bankrupt obligors, loans in arrears and loans in arrears for three months or more.
- Total amount of credits to bankrupt obligors, loans in arrears, loans in arrears for three months or more and restructured loans is 65 million yen. The amounts of credits stated in Nos. 1 to 4 above are amounts prior to the deduction of the allowance for losses.
- For the purposes of settlement and Bank of Japan current overdraft transactions, securities of 74,940 million yen in available-for-sale securities have been provided. Also, 905 million yen in guarantees are included in Other Assets.
- An overdraft agreement is an agreement to lend funds up to a certain limit if a financing request is received from a customer, unless there is any violation of the terms and conditions of the agreement. The unused balance of funds under such agreements is 8,065 million yen. This includes the unused balance of funds in the amount of 8,065 million yen under agreements in which the original term is one year or less.
- Accumulated depreciation for tangible fixed assets 46,970 million yen

(Financial instruments)

1. Matters concerning status of financial instruments

(1) Policy regarding the approach to financial instruments

The Company's basic policy is to ensure security and minimize risks in both raising and investing funds, and the Company does not pursue profit-making by aggressive risk-taking.

Funds raised by the Company can be broadly divided into working capital such as cash to be placed in ATMs and funds for capital investment such as ATM/system-related investment. In consideration of interest rate trends and other such factors, the Company secures the source funds by such means as deposits, long-term borrowings and bond issuance, and raises funds from the call market to cover daily fluctuations in the amount of funds that need to be raised.

On the other hand, the Company's funds are invested mainly in the form of funds and securities operations as a limited end user, although it does operate a small loan business, etc. targeted at individuals. Investment targets are limited to Japanese government bonds and other securities with high creditworthiness and liquidity, as well as deposits at financial institutions with high creditworthiness, call loans, etc. The Company does not invest in risky financial derivatives, etc.

(2) Description and risk of financial instruments

The financial assets held by the Company are largely comprised of cash, primarily for facilitating its ATM business. Surplus funds are released in the form of call loans, which are exposed to the credit risk of the borrowers. Securities mainly consist of bonds and stocks with high creditworthiness and liquidity, and are held for "other purposes." These are exposed to the credit risks of each borrower or issuer, interest rate fluctuation risks and foreign exchange fluctuation risks. Loans receivable are in the form of loan services targeted at individuals (revolving card loans) and are exposed to credit risks arising from the nonperformance of contract by customers; however, the risks are limited, as the receivables are secured in full.

The Company also operates a banking business. Deposits and negotiable certificates of deposits, which account for the majority of its financial liabilities, are exposed to interest rate fluctuation risks. The Company raises short-term funds by using call money as necessary; it is exposed to liquidity risks in that it might not be able to raise the necessary funds. Borrowings and bonds are exposed to liquidity risks in that the payment might not be executable on the due date such as in cases where the Company cannot use the market under certain situations. The Company also borrows funds at variable interest rates, which are exposed to interest rate fluctuation risks. Such risks are averted by executing interest rate swaps.

(3) Risk management framework for financial instruments

1) Credit risk management

The Company observes its basic policy for credit risks established in the Basic Policy on Risk Control, as well as the rules established thereunder called Credit Risk Rules. Credit risks are currently limited to the ATM settlement business, interbank deposits placed with top-rated partner financial institutions, etc., subject to asset-liability management (ALM), release of funds and temporary ATM payment amounts due, thereby curbing credit risks in operations. In addition, the Company performs self-assessment and establishes an allowance for write-offs in an appropriate manner, in accordance with its self-assessment standards, write-off allowance standards and self-assessment/write-off allowance rules.

Credit risks of issuers of securities and counterparty risks in derivative transactions are managed by the Risk Management Division by means of periodically identifying credit information and market value.

2) Market risk management

The Company observes its basic policy for market risks established in the Basic Policy on Risk Control, as well as the rules established thereunder called Market Risk Rules. The Market Risk Rules establish limits on the amount of funds at risk, market position limits and loss allowance limits. The Officer in Charge of Risk Management at the Risk Management Division measures and monitors market risks on a daily basis in light of these limits and reports the results to the management including the Executive Committee. At the ALM Committee convened once a month, the Company's market risk position, expected trends in interest rates and other matters are reported and operation policies are determined.

Quantitative information concerning market risks

Because interest rate risks are key market risks to the Company, the Company measures the Value at Risk (VaR) of entire assets and liabilities of the Company. In measuring the VaR, the Company uses the Variance-Covariance Method (holding period: 125 days, confidence interval: 99.9%, data observation period: 1 year), and the Company's VaR (estimated loss amount) as of March 31, 2017, was a total of 4,753 million yen. Additionally, in light of our business attributes, an interest period has been recognized in terms of cash recorded under assets, which has been calculated as a 5-year zero coupon (average maturity: 2.5 years). In order to verify the validity of the model, the Company regularly performs back-testing by comparing the VaR calculated by the model and the actual gains (losses). However, since VaR calculates market risk at a certain probability that has been statistically calculated on the basis of past market fluctuations, it may not be able to capture risks that occur under market environments changing beyond our normal expectations.

3) Liquidity risk management

The Company observes its basic policy for liquidity risks established in the Basic Policy on Risk Control, as well as the rules established thereunder called Liquidity Risk Rules. The Liquidity Risk Rules establish limits regarding the cash gaps arising from differences between the duration of invested funds and those available to meet current cash needs. The Officer in Charge of Risk Management at the Risk Management Division measures and monitors liquidity risk on a daily basis in light of these limits and reports the results to the management including the Executive Committee. The Company is well prepared in that it has formulated measures in advance on a scenario-by-scenario basis so that it can take company-wide action in a speedy and flexible manner when the cash flow situation becomes tight; therefore, concerns over ensuring liquidity of funds are deemed nonexistent.

(4) Supplementary explanation of matters concerning market value, etc., of financial instruments

The market value of financial instruments includes the value based on market price, in addition to reasonably calculated value in cases where the financial instrument has no market price. As certain assumptions, etc., are adopted when calculating the value of such financial instruments, the value may vary if different assumptions, etc., are adopted.

2. Matters concerning market value, etc., of financial instruments

The amount declared on the consolidated balance sheet, the market value and the difference between the two as at March 31, 2017, are as follows. In cases where it is deemed extremely difficult to identify the market value of unlisted stocks and other such financial instruments, the value is not included in the table below (refer to Note 2).

(Unit: million yen)

	Consolidated balance sheet amount	Market value	Difference
(1) Cash and due from banks*	694,586	694,586	—
(2) Securities			
Other securities	75,490	75,490	—
(3) Loans receivable	19,829		
Allowance for losses*	(0)		
	19,828	19,828	—
(4) ATM-related temporary payments*	89,284	89,284	—
Total assets	879,191	879,191	—
(1) Deposits	571,510	572,023	512
(2) Negotiable certificates of deposits	800	800	—
(3) Call money	10,000	10,000	—
(4) Borrowed money	10,000	10,159	159
(5) Bonds	110,000	111,497	1,497
(6) ATM-related temporary advances	37,763	37,763	—
Total liabilities	740,074	742,243	2,169

* Allowance for losses for general accounts and allowance for losses for individual accounts corresponding to loans receivable have been deducted. Allowance for losses with respect to cash and due from banks and ATM temporary payments was insignificant and therefore directly deducted from the amount on the consolidated balance sheet.

Note 1: Calculation method of market value of financial instruments

Assets

(1) Cash and due from banks

The market value of due from banks with no maturity is approximately the same as the book value; therefore, the book value is stated as market value. The deposit term of due from banks with maturity is short (no more than one year) and the market value is approximately the same as the book value; therefore the book value is stated as market value.

(2) Securities

Bonds are stated at the price quoted on the exchange or the price presented by the corresponding financial institution. Notes on the securities by holding purpose are stated in the "(Securities)" section below.

(3) Loans receivable

The market value of variable interest-rate loans receivable is approximately the same as the book value, since they are short-term and reflect the market interest rate, unless the credit status of the borrower is substantially different after the execution of the loans; therefore, the book value is stated as market value. Fixed interest-rate loans receivable amounted to zero.

With respect to credits, etc., to bankrupt obligors, substantially bankrupt obligors and bankruptcy risk obligors, the market value is approximately the same as the amount on the consolidated balance sheet as at the consolidated fiscal year-end minus the current estimated amount of credit losses, since the estimated amount of credit losses is calculated based on the present value of estimated future cash flow or the expected collectable amount with the collateral and guarantee, etc.; therefore, the book value is stated as market value.

(4) ATM-related temporary payments

The pre-settlement period is short (no more than one year) and the market value is approximately the same as the book value; therefore, the book value is stated as market value.

Liabilities

(1) Deposits and (2) Negotiable certificates of deposits

The market value of demand deposits is deemed as the amount payable presuming that the demand is made at the end of consolidated fiscal year (book value). The market value of time deposits is calculated by discounting the present value by future cash flow divided into categories of set periods. The discount rate applied is the rate used when accepting new deposits. The market value of deposits with a short residual period (no more than one year) is approximately the same as the book value; therefore, the book value is stated as market value.

(3) Call money

The contract period is short (no more than one year) and the market value is approximately the same as the book value, therefore the book value is stated as the market value.

(4) Borrowed money

As for borrowed money based on a fixed interest rate, the present value is calculated by discounting the sum of the principal and interest of such borrowed money (in the case of borrowed money subject to special accounting treatment for interest rate swaps, the sum of the principal and interest based on the rate of such interest rate swaps) divided into categories of set periods at the expected rate for similar borrowings. The market value of borrowed money with a short residual period (no more than one year) is approximately the same as the book value; therefore, the book value is stated as market value. Borrowed money based on variable interest rates amounted to zero.

(5) Bonds

The market value of bonds issued by the Company is stated at market price.

(6) ATM-related temporary advances

As the pre-settlement period is short (no more than one year), the market value is approximately the same as the book value; therefore, the book value is stated as the market value.

Note 2: The following are financial instruments whose market value is deemed extremely difficult to identify, and are not included in "Assets (2) Other securities" of "2. Matters concerning market value, etc., of financial instruments."

(Unit: million yen)

Notes:

1. The number of stock options is stated as converted into number of shares. As of December 1, 2011, the Company conducted a 1,000-for-one stock split for its common stock; therefore, the number of converted shares was adjusted for the “Number of shares acquired upon exercise of subscription rights to shares” with regard to the above First Round – (1) Subscription rights to shares through the Fourth Round – (2) Subscription rights to shares to reflect the stock split.
2. Holders of subscription rights to shares may only exercise their subscription rights to shares within 10 days of the date following the day on which the holder’s position as Director is forfeited.
3. Holders of subscription rights to shares may only exercise their subscription rights to shares within 10 days of the date following the day on which the holder’s position as Executive Officer is forfeited (in cases where the holder has taken the position of Director, then the date on which the position of Director is forfeited).

(2) Scale of and changes in stock options and subsequent adjustments

Note: The number of shares to be acquired upon exercise of one (1) subscription rights to share shall be one thousand (1,000) shares of common stock of the Company. As of December 1, 2011, the Company conducted a 1,000-for-one stock split for its common stock; therefore, exercise prices were adjusted for the "Number of shares acquired upon exercise of subscription rights to shares" with regard to the above First Round – (1) Subscription rights to shares through the Fourth Round – (2) Subscription rights to shares to reflect the stock split. In addition, average stock price at exercise represents the average price of the Company's stocks at the time when stock options were exercised.

3. Calculation method employed to establish the fair value valuation price for stock options granted during the term

The method employed for calculating the fairly evaluated unit value for the Ninth Round – (1) and Ninth Round – (2) Subscription rights to shares granted during this consolidated fiscal year is as follows.

(1) Valuation method employed: Black-Scholes model

(2) Key parameters used in the option-pricing model

	Ninth Round – (1) Subscription rights to shares (Stock compensation-type stock options)	Ninth Round – (2) Subscription rights to shares (Stock compensation-type stock options)
Expected volatility (Note 1)	30.354%	30.354%
Average expected life (Note 2)	7.69 years	7.69 years
Expected dividends (Note 3)	8.5 yen per share	8.5 yen per share
Risk-free interest rate (Note 4)	(0.187%)	(0.187%)

Notes: 1. Calculated on the basis of actual share prices of the Company's stock for the seven-year and eight-month period from November 29, 2008, to August 8, 2016.

2. For Directors and staff currently employed by the Company, the assumption is made that the stock options will be exercised on a future date calculated by adding a 10-day period, in which the rights may be exercised, to the average period in days from June 2016 until the retirement dates of all such Directors and staff.

3. Expected dividends are based on actual dividend amounts as of the date of grant.

4. The risk-free rate employed is the yield of the Japan Government Bond with a period to maturity currently corresponding to the forecast period used in the calculation.

4. Method for calculating the number of stock options vested

Only the actual number of forfeited stock options is reflected because of the difficulty of accurately estimating the actual number of stock options that will be forfeited in the future.

We have audited the financial statements, comprising the balance sheet, the statement of income, the statement of changes in net assets and the explanatory notes, and the supplementary schedules of Seven Bank, Ltd. as at March 31, 2017 and for the year from April 1, 2016 to March 31, 2017 in accordance with Article 436-2-1 of the Companies Act.

Management's Responsibility for the Financial Statements and Others

Management is responsible for the preparation and fair presentation of the financial statements and the supplementary schedules in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of financial statements and the supplementary schedules that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements and the supplementary schedules based on our audit as independent auditor. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and the supplementary schedules are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements and the supplementary schedules. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements and the supplementary schedules, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements and the supplementary schedules in order to design audit procedures that are appropriate in the circumstances, while the objective of the financial statement audit is not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements and the supplementary schedules.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements and the supplementary schedules referred to above present fairly, in all material respects, the financial position and the results of operations of Seven Bank, Ltd. for the period, for which the financial statements and the supplementary schedules were prepared, in accordance with accounting principles generally accepted in Japan.

Other Matter

Our firm and engagement partners have no interest in the Company which should be disclosed pursuant to the provisions of the Certified Public Accountants Law of Japan.

Audit Report
(English Translation)

Regarding the performance of duties by the Directors for the 16th fiscal year from April 1, 2016, to March 31, 2017, the Audit & Supervisory Board hereby submits its Audit Report, which has been prepared upon careful consideration based on the audit report prepared by each Audit & Supervisory Board Member.

1. Summary of Auditing Methods by the Audit & Supervisory Board Members and the Audit & Supervisory Board

- (1) The Audit & Supervisory Board established auditing policies, allocation of duties, and other relevant matters and received reports from each Audit & Supervisory Board Member regarding his or her audits and results thereof, as well as received reports from the Directors, other relevant personnel and the Accounting Auditors regarding performance of their duties, and requested explanations, as necessary.
- (2) Each Audit & Supervisory Board Member complied with the auditing standards stipulated by the Audit & Supervisory Board, followed the auditing policies, allocation of duties and other relevant matters for the fiscal year ended March 31, 2017, communicated with Directors, the internal audit department, other employees and any other relevant personnel, made efforts to prepare the environment for information collection and audit, and conducted audits by the following methods.
 - 1) Participated in meetings of the Board of Directors and other important meetings, received reports from the Directors, employees and other relevant personnel regarding performance of their duties, requested explanations as necessary, examined important authorized documents and associated information, and studied the operations and financial positions at the head office and principal business offices. With respect to the subsidiaries, we communicated and exchanged information with Directors, Audit & Supervisory Board Members and other relevant personnel of the subsidiaries and received the business reports therefrom as necessary.
 - 2) With respect to the system for ensuring that the performance of duties by the Directors as stated in the Business Report conforms to the related laws, regulations and the Articles of Incorporation, and the system prepared based on the contents of the resolutions of the Board of Directors and such resolutions regarding preparation of the system stipulated in Article 100, Paragraphs 1 and 3, of the Ordinance for Enforcement of the Companies Act (internal control system) as a necessary system for ensuring the appropriateness of business operation by a corporate group consisting of the stock company and its subsidiaries, we received regular reports from Directors, employees and other relevant personnel regarding the development and the operation of the system, requested explanations as necessary and expressed opinions. With regard to the internal control over financial reporting based on the Financial Instruments and Exchange Act, we received reports on the assessment and audit status of said internal control from the Directors and the Accounting Auditors (KPMG AZSA LLC), and requested explanations as necessary.
 - 3) We monitored and verified whether the Accounting Auditors maintained their independence and implemented appropriate audits, as well as received reports from the Accounting Auditors regarding the performance of their duties and requested explanations as necessary. In addition, we received notice from the Accounting Auditors that the “system for ensuring that duties are performed properly” (matters set forth in each item of Article 131 of the Ordinance for Corporate Accounting) had been prepared in accordance with the “Product Quality Management Standards Regarding Audits” (issued by the Business Accounting Council on October 28, 2005) and other relevant standards, and requested explanations as necessary.

Based on the above methods, we examined the business report and its accompanying supplementary schedules, financial statements (Balance Sheet, Statement of Income, Statement of Changes in Net Assets and Notes to Explanatory Notes) and the accompanying supplementary schedules, as well as the consolidated financial statements (Consolidated Balance Sheet, Consolidated Statement of Income, Consolidated Statement of Changes in Net Assets and Explanatory Notes (Consolidated)) pertaining to the relevant fiscal year.

2. Results of Audit

(1) Results of Audit of Business Report and Other Relevant Documents

1. In our opinion, the Business Report and the accompanying supplementary schedules are in accordance with the related laws, regulations and the Articles of Incorporation, and fairly present the Company's condition.
2. We have found no evidence of wrongful action or material violation of related laws and regulations, nor of any violation with respect to the Articles of Incorporation, related to performance of duties by the Directors.
3. In our opinion, the contents of the resolutions of the Board of Directors related to the internal control system are fair and reasonable. In addition, we have found no matters on which to remark regarding the description in the Business Report and the performance of duties by the Directors related to such internal control system, including the internal control over financial reporting.

(2) Results of Audit of Financial Statements and the Accompanying Supplementary Schedules

In our opinion, the methods and results employed and rendered by KPMG AZSA LLC are fair and reasonable.

(3) Results of Audit of Consolidated Financial Statements

In our opinion, the methods and results employed and rendered by KPMG AZSA LLC are fair and reasonable.
