

Seven Bank Reaches Turnkey Agreement with Nanto Bank on their Off-premise ATMs

—First deal with a regional bank; replacement of off-premise ATMs starts in 2019—

Seven Bank, Ltd. (hereinafter “Seven Bank”; headquarters: Chiyoda-ku, Tokyo; President and Representative Director: Yasuaki Funatake) announced today that it reached an agreement with the Nanto Bank, Ltd. (hereinafter “Nanto Bank”; headquarters: Nara City, Nara Prefecture; President: Takashi Hashimoto) to provide a full turnkey service for Nanto’s off-premise ATMs.

Based on the agreement, Seven Bank will replace Nanto’s ATMs installed outside office/branch premises (mainly those located at stations and universities) with its own ATMs in 2019, to operate them jointly with Nanto Bank. The number of these ATMs will be increased in a phased manner, depending on the frequency of use by customers and operational efficiency. This turnkey agreement is intended to offer a comprehensive ATM management service, including cash demand forecasting, cash replenishment, ATM troubleshooting, etc. It will not only provide an optimized service but also significantly contribute to the reduction of operation and maintenance costs.

Seven Bank has entered into a number of ATM installation and operation agreements with companies such as Nomura Securities and Shinsei Bank. It now operates 449 ATMs for 26 entities (as of the end of June 2018). The agreement reached this time is the first agreement with a regional bank to operate a multiple number of ATMs collectively.

In the future, Seven Bank will continue to utilize its ATM network infrastructure and operational/management know-how to reduce partner financial institutions’ burden in operating and managing their ATMs, as well as to improve customer convenience.
